## **BAGS:**

I hope that in the end I don't carry too many things to in the Tailfin AeroPack Carbon, 1 Tailfin mini pannier, Apidura Expedition handlebar pack & Apidura expedition accessory pocket, Apidura packable backpack; Revelate Designs Gas Tank, Revelate Designs Mountain Feedbag Handlebar Bag; Apidura racing hydration vest. Not in the picture: Two Tailfin Cargo Cages mounted on the suspension fork - for additional water bottles

## **GEAR HIGHLIGHTS:**

Front light is a SON Edelux II powered by a Son 28 dynamo and on my helmet: Lupine Piko; rear lights are Bontrager flare RT and Lupine Rotlicht Max LED. Battery chargers are NC-17, Connect APPCON 3000; mini pump: Lezyne Micro Floor Drive.

I also hope that I find my way safely north with my Garmin Edge 1040. I want to dream for a few (or more?) hours in my tent: Nordisk – Lofoten2, on my Therma-a-Rest NeoAir mat and my thin sleeping bag: Yeti/ Passion One. And last but not least that my seat bones are not too strained on my saddle ISM PL 1.1 in my beloved cycling shorts Skinfit tri shorts and Assos half shorts.

As always- no matter about the weight: As my lucky item I absolutely have to bring my little scuffed white BEAR with me, who accompanied me on the Atlas Mountain Race, GBDuro, NorthCape4000 and Three Peaks Bike Races, among others.
